

The top 14 Simbraviehs in this ad are full ET sibs sired by the many times champion WTR Hip Check, a Fullblood Braunvieh Show Bull and Show Sire of the Year. He is at the top for weaning and yearling weight EPDs. His dam is our leading donor, WTR Baylee who is homozygous for the valuable Calpain Tenderness gene. Pictured is our Senior herd Sire, LMC Smokem at 13 months of age.

SIMBRAVIEH - The New American Beef Machine

SIMBRAVIEH is a new American breed being developed at La Muñeca by crossing two functional breeds of beef cattle (Braunvieh and Simbrah). They complement each other very well. Both breeds offer plenty of calving ease, fertility, milk, growth, carcass merit, docility, heat resistance and longevity. SIMBRAVIEH cattle can be any color, polled, polled/scurred or horned and must be out of registered parents. The majority of the beef producing regions of the BEEF WORLD require cattle with EAR in order for the cattle to function. SIMBRAVIEHS are a natural fit for these areas. SIMBRAVIEHS have a WORLD of POTENTIAL. SIMBRAVIEHS will be registered with the Braunvieh Association of America. We encourage you to get in on the ground floor of this exciting new breed to help us optimize the best kept secret in the cattle business. The CONSUMER DEMAND is as good as the cattle and they are great !!

LMC Shania is one of ten full ET sisters that will be the nucleus of our Simbravieh program. She is a COWMAN'S KINDA COW. Their dam, LMC SH - 144 was a super fertile Simbrah donor for us averaging over 40 eggs per flush - 72 fertilized # 1's in one flush. We have bred these sisters several different ways in an effort to identify the best mating. Photo at 12 months of age.

Quality in Quantity

(A Phenomenal Foundation For SIMBRAVIEH)

CONGRATULATIONS Marco Flores on your champion 13 month old SIMBRAVIEH steer weighing 1250 lbs. Simbraviehs offer excellent feed efficiency and can help you earn a premium on the grid which all add up to PROFITABILITY. We are excited about our SIMBRAVIEH club calf sales.

LMC Salute is a typical SIMBRAVIEH bull calf. At just nine months of age, you can see that he will meet our BUTTS, GUTTS & NUTS standard. We are appreciative on how well progressive COWMEN from all over the world are buying these cattle.

THANK YOU Rusty Williams from George West on buying LMC S 259. Rusty appreciates the big hip, big foot, extra muscle & feed efficiency that these cattle offer. He is in the club calf business to stay and needs the extra bone, correctness and mobility of Simbravieh.

LMC S 32 is one of two full sibs that we sold Lane Cappell from Louisiana. He is a long time believer in Braunvieh genetics and is excited about using Simbravieh bulls in their harsh, humid, environment in an effort to get more cows bred with less bulls. THANK YOU!!

A GOOD BULL IS A SOLD BULL! These SIMBRAVIEHS are selling hotter than any breed we have ever had both as club calves & range bulls. Out of first 23 bull calves, we have culled one, kept four for us & sold 18 at an average age of 7 months for a \$2,100 avg. THAT'S CONSUMER DEMAND!!

LMC Taurus is one of two full sibs that we sold LPJ ranch to use on their commercial cows to produce replacement heifers and club calves. They are impressed with the clean sheaths, fertility, muscle and docility of the bulls. MIL GRACIAS por su negocio !!

LMC Stefania is our lead off Jolt sired SIMBRAVIEH heifer that we sold 1/3 interest to Pepe Guerra along with 1/3 of six stout F-1 Simbrah heifers to breed to breed to our 1/2 Braunvieh x 1/2 Angus bull called "The Reverend" for some fancy black polled SIMBRAVIEHS. MIL GRACIAS !!

LMC Cecilia is another stout made Jolt daughter out of a LMC Milestone daughter. Look at her body structure, long level thick hip, tremendous bone, muscle, capacity and yet is so feminine. These are the kind that will put SIMBRAVIEHS on the WORLD BEEF MAP to stay.

LMC Tanya is a super angular MAMA COW in the making sired by Jolt and a LMC Red Maximus daughter. Everyone that has seen these cattle has been impressed. I encourage you Braunvieh breeders to breed a cow or two to a top Simbrah bull and get your deposit books ready.

LMC Sadie is a fancy, long bodied heavy muscled SIMBRAVIEH sired by our champion T CAT and a MAR Ranch cow. We want to take this opportunity to THANK our partner Louie Flores & his family for giving their 1/3 of Sadie to our grandson Carlos X. Guerra III "Pops".

LMC LF Blacksmith is our triple bred Vernon Junior Braunvieh Herd Sire and will produce his first set of Simbravieh calves next spring. He has phenomenal extension, muscle, base and walks like a cat. He offers NEW BLOOD to our SIMBRAVIEH program. Albinism free. We will have over 100 SIMBRAVIEHS this next crop. Give us a call, email or come see us and let's talk SIMBRAVIEH.

LMC Ammo is one of many Simbrah bulls that we sell semen on that you can utilize to produce your share of tomorrow's top selling SIMBRAVIEHS. We will be selling 100% of him with a semen bank at our MAS SIMBRAH SALE III on March 29, 2008. He is a full sib to our Red & Black Bullet, the 2005 & 06 International Champs. Ammo was Reserve in 06. His calves are awesome !!!

WTR JOLT is the only Braunvieh bull to ever win all four major shows. JOLT is a BULL AMONGST BULLS. He has done a marvelous job on our Simbrah cows as can be seen in the above photos. These calves were all born unassisted with an average birth weight of 72 pounds. We will have another set of Jolts this fall. Semen sells for \$25 per unit, no minimum. BAA AI certificates at BAA Cost. Albinism free.

Keys 402G "Polled Lightning" is deceased but left a bank of semen and lots of good cattle behind. We have a set of SIMBRAVIEHS coming from him next spring. We bought him because we thought he was the thickest and best looking POLLED bull in the breed. He was A STANDARD OF EXCELLENCE KINDA BULL. Semen sells for \$25 per unit. BAA AI certificates at BAA cost. Albinism free.
